

Information Regarding Lessons

Each lesson is directly from our “Dig In” curriculum. The pages that are downloaded are the teacher’s pages for each lesson.

The first page of any lesson is an introductory page. This will tell you what bible verses are used for the bible story and what the bible story is about. The next pages are “This Lesson at a Glance”. These pages explain what is needed for each activity of the lesson.

Each lesson contains the following activity blocks:

- The Opening
- Object Lesson
- Core Bible Discovery
- Deeper Bible
- Talk About Video
- Music Video
- Craft
- Low Energy Game
- High Energy Game
- Life Application Wrap-up
- Take Home Page

Within each lesson there are links to download pages that may be used for each section. **IMPORTANT:** You do not need to do every section. In a typical class, we usually cover three to four of the sections. Of course, the most important section is the Core Bible Discovery.

Any Bible can be used for the lesson. If you wish to use the same Bible as we do in our classes, click [here](#).

If you have any questions, feel free to email wonderlandmessiah@gmail.com or dercat87@gmail.com.

Stay safe and God Bless!
